

A Touchstone Energy® Cooperative 

The board of directors, management and employees of Southern Pine Electric Power Association commend for a job well done the Mississippi legislators who represent our service area. We appreciate their dedication and their willingness to serve. Pictured here are the lawmakers representing districts that include the Southern Pine service area.

District 34: Jasper, Jones, Scott and Smith counties

The Greenest Power Is Power Not Used.

Electric demand continues to grow steadily, which will require building new generating plants in the near future. Wise energy use can help offset some of our immediate needs, and choices you make now can actually reduce your usage. Install CFL lights. Select energy efficient appliances. We can't put off all future needs and growth, but nothing can be greener than energy not used.
